

NATURE IS A KINGDOM

WILDLIFE PHOTOGRAPHER | NATURALIST | CONTENT CREATOR

ABOUT ME

Hi, I'm Jade

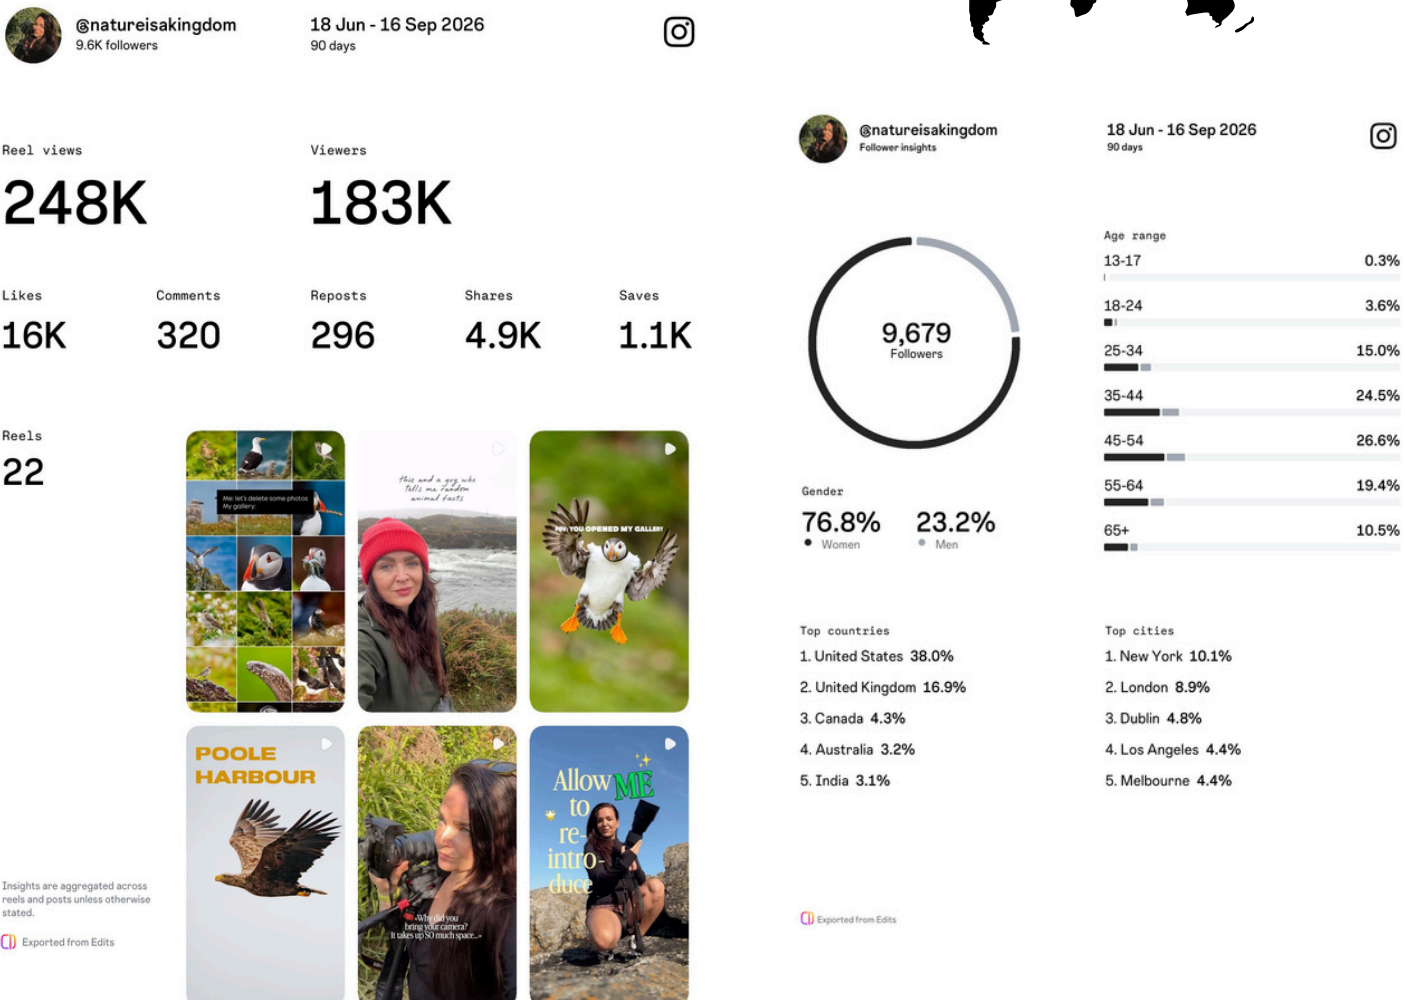

I've been passionate about photography since I was around 16, but over the past three years, I've shifted my focus to not only capturing wildlife but also studying animal behavior, biology, and the positive impacts of conservation.

The natural world fascinates me and has done since I was a child, and each day I find myself amazed by the wildlife and the incredible ecosystems around us. As a photographer, my goal is to provide visual joy while educating others about the unique beauty of nature. Shining a light on species or ecosystems that often go unnoticed and to help drive conservation awareness.

Creativity has always been a part of my life, influencing everything I do. I see the world vibrantly in sound and vision. I firmly believe that "comparison is the thief of joy." Every action can make a difference, and I hope you enjoy my perspective on the world.

LETS WORK TOGETHER!

I am always looking to collaborate with passionate brands, individuals, or businesses.

This includes everything from tourist boards and fellow naturalists to filmmakers, charities, camera brands, and eco-conscious fashion and outdoor brands.

I create aesthetically beautiful content, whilst giving a fun, educational & accessible element. For travel & lifestyle I curate photo & video content that gives the viewer a feeling or emotion of the location.

As I begin my career as a wildlife and photography guide, I bring a creative mindset, environmental consciousness, and knowledge of wildlife and photography to the table.

My ethos is centered on protecting the natural world and showcasing its beauty. If you share this vision, let's work together! If you're looking for someone who is creatively minded, environmentally conscious, or has knowledge of wildlife & photography, I'm your gal.

My ethos is to help protect the natural world & showcase the beauty of it; if this is also you then let's work together.

BRANDS I'VE WORKED WITH

Craghoppers

K'Nature
